Here at Ezpeleta we design and produce a wide range of chairs using different materials. In recent years, we have prioritised the use of polypropylene due to the fantastic characteristics that this material offers. The decision to continue producing new collections based on this material was a simple one given that it is a light-weight, comfortable, long-lasting and resistant material which is also recyclable.

Ezpeleta dessine et produit une vaste gamme de chaises et fauteuils sous différents matériaux. Au cours de ces dernières années, nous avons centré nos efforts dans l'utilisation du polypropylène en raison des aspects qualitatifs qu'il apporte au produit: Légereté, confort, durabilité, résistance et recyclabilité; De nombreux points forts qui nous animent ici à développer de nouvelles collections basées sur ce type de matière première.
